## German

### Introduction

This catalogue contains details about the interactive digital learning objects available from The Learning Federation (TLF). The content has either been produced by TLF or licensed from other sources and made available by TLF.

#### TLF-produced content

The TLF Languages online curriculum content is designed to produce high-quality digital learning resources and online tools to help students in years P–10 learn German. The TLF produced content for German is part of the **Close encounters** project.

In the *Close encounters* set of learning objects, based on the principles of Intercultural Language Learning, students use the target language to communicate and interact in authentic activities that portray the socio-cultural characteristics of the target country. The learning objects incorporate a range of rich multimedia with spoken dialogue enabling immersive intercultural language learning experiences not easily generated by students and teachers in the classroom. The learning object scenarios also offer opportunities for teachers and students to integrate other complementary and contributory online and offline activities.

#### Content from other sources

TLF also licenses German content from other sources to include in the pool of digital resources available to all schools in Australia and New Zealand.

#### General information

The catalogue provides details of all German learning objects released to date.

An asterisk (\*) indicates that a learning object/s in a series is still in development.

Learning objects are grouped into series and each series has a key graphic representing the series. Many of the learning objects are aggregated into a sequence or theme. Aggregated learning objects are identified with the symbol .

Content from other sources, as well as some learning objects produced by TLF, contain licensed copyright material (non-TLF content). See the Acknowledgements and Conditions of use in the learning objects for details.

Government and non-government education authorities in each Australian state and territory and in New Zealand have responsibility for facilitating access to the pool of learning objects. Contact TLF's Contact Liaison Officer (CLO) in your state, territory, school sector or country for details.

For further information about TLF, learning objects and contact details for CLOs go to the website at [www.thelearningfederation.edu.au](http://www.thelearningfederation.edu.au).

## Close encounters

### Photo album (Years 5–10)

Through the character of a young German school girl and her album of photos, students are introduced to various unique aspects of German life under the themes of celebrations, daily life and school.

Learning objects	LO ID	Years
Photo album: daily life 1 (German)	5955	5–8
Photo album: daily life 2 (German)	5956	9–10
Photo album: school life 1 (German)	5959	5–8
Photo album: school life 2 (German)	5961	9–10
Photo album: celebrations 1 (German)	5957	5–8
Photo album: celebrations 2 (German)	5958	9–10

This series contains non-TLF content. See Acknowledgements in the learning objects.

In the Photo album series of learning objects, students match captions with the appropriate photograph and respond to targeted multiple choice questions. Important reading and listening skills are developed. Each learning object features ten authentic cultural images with graded descriptions to match the level of the target student audience. Students are required to complete a cloze exercise relating to the images encountered, consolidating learnt vocabulary.

In the versions for older students (years 9–10), the language is more complex.

## Content from other sources

### Super!

The Super! set of learning objects allow students to:

- explore the social and physical context of Germany
- apply reading and listening skills to solve puzzles and match written or spoken phrases to images
- explore dialogue and language used in daily life.
